

# Accessible Splash Art

COMBINE THE POWER OF A POWERLINK  
WITH A HAIR DRYER TO CREATE A WORK OF  
ART!

Hair Dryer or  
Fan

Liquid Paints

Art Paper

PowerLink &  
Switch

**01** Place paper on a flat surface, in view of the user.

**02** Attach the hairdryer & switch to the Powerlink.

**03** Position the switch for user access.

**04** Position the hairdryer so that the airflow hits the paints.\*

**05** Pour paint onto the work surface.

**06** Power on your hairdryer, choose a mode on the Powerlink, hit the switch & make some art!

*Happy creating!*

*\*Be prepared, this can get messy! Spread newspapers on surrounding surfaces, use a low speed on your hairdryer, and take care when positioning the paints and the direction of the air flow!*

## Pro Tip

*Choosing paint colors is a great way to facilitate communication. Users can verbally express or use their AAC devices to choose colors. For a simplified approach use a yes/ no response. Alternatively, paint choices can be displayed in front of the user to allow them to reach, grab, or point to their desired colors.*
