

Switch Adapted Bowling

COMBINE THE POWER OF A POWERLINK WITH A HAIR DRYER TO PLAY A MODIFIED, SWITCH ACCESSIBLE BOWLING GAME!

Hair Dryer or Fan

A light weight ball or rolled up paper

Objects to knock over like plastic bottles

PowerLink & Switch

01

Line up you 'bowling pins'* and 'bowling ball'.

02

Attach the hairdryer & switch to the Powerlink.

03

Position the switch for user access

04

Position the hairdryer so that the airflow hits the ball.

06

Power on your hairdryer, choose a mode on the Powerlink, hit the switch & knock over those pins!

Happy Bowling!

**Options for bowling pins are endless; try old plastic bottles, empty containers, cardboard boxes, or plastic cups! These objects can be painted with white with red stripes, at the top, to more closely resemble bowling pins!*

Pro Tips

Add auditory feedback by filling the 'bowling pins' with materials that will make noise when knocked over. Try dried rice, jingle bells, or dried beans.

Make it a math activity by counting the pins that fell over and exploring concepts like more than and less than.
