

functionalhand

The **functionalhand**[®] was created by therapists, Linda Merry, OTR and Celine Skertich, PT. It has been engineered to assist individuals who have difficulty with grasp, providing a means to hold objects for fun and function!

- ✓ **One tool** to complete multiple everyday tasks
- ✓ Supports a **wide range of ages & abilities**
- ✓ Holds in the **horizontal or vertical** orientation
- ✓ V-design **prevents slippage**
- ✓ **Ergonomically designed** to support the anatomy of the hand
- ✓ Materials durable enough to be **dishwasher safe**
